About This Software

Zoom Player is a Powerful, Flexible and Highly Customizable Media Player and Media Center software for the Windows PC platform. Using our Smart Play technology, more media formats play with less hassle, improved stability and greater performance. Zoom Player's fullscreen navigation interface is based on a simple 5-Key system (up/down/left/right/select). The 5-key system is suitable for easy access and navigation by novices and experts alike.

Dedicated support staff & documentation

With Zoom Player, you are not only getting a professional quality software, but also tech support from fans, QA personal and access to the development and art team.

To top it off, Zoom Player's documentation is unparallelled in scope, every feature is explained in great detail, the vast number of customization features are easily searchable through the options dialog search feature and selected features are shown & automatically highlighted.

Main Features

- A polished user interface (check the screenshots!) with no bloat!

- The User-Interface is customizable to the extreme with hundreds of settings that control every aspect of the user experience.

- Use the XBOX 360 controller (or compatible devices) as a remote control with custom functions assignable to buttons and thumb sticks.

- Over [300 functions,](#) assignable to keyboard keys, mouse buttons, remote control buttons or controller buttons and thumb sticks.

- Hardware accelerated video Decoding & DeInterlacing (DXVA, CUDA, QuickSync).

- Hardware, GPU based high-quality image upscaling algorithms (Bicubic, Lanczos, Jinc), maxing out high-end gaming cards for best-in-class video image quality.

- Digital Audio output over S/PDIF & HDMI Bit-Streaming to external receivers/amps.

- An Install Center application which makes life easy by keeping decoding components consistently up to date (optional).

- A [fullscreen navigation interface,](#) easily upgrading the PC into a full Home Theater experience or for use on touch-screen tablets.

- A Command & Control API that works over TCP/IP (the internet), COM or WinAPI, providing access to custom mods you can create yourself.

- Decrypted Blu-Ray Movie playback with Subtitle support.

- Video Wall (Span a single video across multiple monitors).

- Scene-Cut (Dynamic, Virtual Audio/Video editing).

- Non-Linear 16:9 (widescreen) / 4:3 (fullscreen) video scaling.

- Video Orbiting (Prevents screen-burns by slowly moving the video image every few seconds).

- HTML, Flash and QuickTime Interactivity (Browse content from within Zoom Player, bypassing standard media controls).

- Create custom Mobile-Phone RingTones from playing media.

- GuardDog (Automatically restart Zoom Player if the player becomes unresponsive).

- All popular formats are supported : H.264, XVID, DIVX, DVD, Blu-Ray, FLV, WMV, QuickTime, MPEG 1/2/4, MP3, AAC, DTS, Dolby Digital, FLAC and many more including the recent ones such as Dolby-TrueHD, WebM, OPUS, etc...

- Click [here](#) for the complete feature list.

Note: The latest version of DirectX is recommended but not mandatory. We suspect most of you have updated already and we simply did not want to burden you with a bloated download. If you feel it is finally time to upgrade to the latest DirectX, [click here](#).

it's 14 mb, nuff said. Lack of VOLUME CONTROL ruins the game. Having to hear the music blasting full volume constantly is lazy software development.. It's a perfect otome game with great visuals, an exceptional story superior to the vast majority of otome games, great VA, great music, and great everything in general.

It's also steampunk which is always cool.. Flippin' awesome, me like!. i can not even register on their website says "Please see Captcha form" but I did not even see a Captcha thing.

Playing this feels like kicking yourself in the balls, but im a masochist.. game has sound.. other reviews must have \u2665\u2665\u2665\u2665\u2665\u2665 computers?

isnt a bad game for 5$

just very repetitive but simple to play

one of those nothing else to do kinda games

no multiplayer, maybe if u could play against a friend it would be alright.

other than that you would have to do the challenges alone. Dude this video was so awesome. Not only did it show some highlights from that championship, it also said who the winner was and when the next championship is going to happen and where it is. Theres a lot more but i'm not really gonna put it in words.. A very simple platformer with an awesome visual aesthetic and some very hypnotic music. This psychedelic experience doesn't last long but it's one you'll find yourself lost in.. Simple, nice art, 4 badges and free doesn't get much better than that. Yes the controls are a little clunky and the english voice acting is a little odd but overall this is a pleasant experience.. Curator Review:

This turn-based, party-based, strategy, RPG is a relatively unknown. Take control of a Dwarf without a beard who is on a quest to find his beard. Gain party members and push your way to the mythical flower that always seems just ever out of your grasp. This game is certainly unique and is priced at US$10. It is worth a playthrough if you are a fan of the genre. 6/10

Hey all,

250 keys were rewarded for the past 3079 key giveaway, and now it is time to give away 150 keys for 3089! Enter here:

http://www.grabthegames.com/giveaway-3089-game-free-steam-keys.html

Swawa3D (my awesome artist) and I are working very hard on the upcoming game, 4089. We are planning a KickStarter with all the juicy details in a few weeks!

Good luck in the giveaway,
- Phr00t. **Future of the updates**:
Greetings
So,
You probably know I decided to postpone translations of the game to other languages.. Well I have bad news if you were waiting for translations.
I decided to cancel all of those despite having the strings translated due to the fact I would have to redraw some sprites and stuff.

What is coming however, is a racing simulator within Starting the Game, with reference to an old popular video (Sammy, you are breaking the car) and more.

For now though, I dont think I will be able to do much more than bugfixes within the next two months. I will have a lot of time in december, though.

Thanks for being here

I also wanted to quickly remind you that the more reviews we get the bigger the chance we will get trading cards is.

Thanks for any reviews - they dont need to be positive, just tell me what you really think. What do you dislike?

Regards
Diver. **More multiplayer progress #3**:
This may be the second-to-last update before I take it out of the multiplayer_test beta branch. Afterwards I'll start working on more abilities and weapons. Also more enemies will be added afterwards.

Changes. **New Yankee 7: Deer Hunters released!**:
Hurry up to get additional discount on New Yankee 7: Deer Hunters!

https://store.steampowered.com/app/1066700/New_Yankee_7_Deer_Hunters/. **The journey has begun**:
Hey folks, thank you for downloading Tinkr Garage Early Access. We are just getting started. We will add more vehicles, scenes, game elements and more! If you have any suggestions about the gameplay, please let us know! We are a small team, but we want to make big things happen.. **Kickstarter Launched for Episode 2!**:
Eager to find out what happens next to Sofya and Heremon? Check out our Kickstarter campaign for the next episode, Echoes of the Fey: The Last Sacrament!

The Last Sacrament will be bigger in scope than anything we've made yet. Like Episode 0, we're building the game in UE4. We're also adding a unique gameplay element in the form of a mini-game called RiftRealms.

RiftRealms is a tabletop game that exists in the world of Echoes of the Fey, and as Sofya you can play with other characters. We thought this would be an interesting way to showcase each character's personality based on how they treat you as a Dungeon master. It also explores the question: what do people fantasize about in a fantasy world?

You also have several romance options in The Last Sacrament. If you proceed carefully, you can develop a romantic relationship with Katerina, Arkady, Nikolai, or Heremon.

[Kickstarter Campaign](). **Update V0325**:
1. Opened up Workshop for 3rd party Mods and added uploading tools. (Chinese User Menu updated, the English is still under translation process.)
2. Solved the infinite loading problem when cancelling saving.
3. Now the imported pictures won't get compressed.
4. Added 2 new models.
5. Solved the character shifting problem in customize action when pressing ctrl.
6. Added decolor function to 3D scenes and 3D characters, the original decolor function is now renamed sketching.
7. Solved the white screen problem that occurred to some people when saving.
8. Added about 10 3D items and about 70 2D items and expressions.
